

- DESCRIPTION.**

Structure made of a 2 mm iron zinc sheet.

Due to its design, the sled-ground contact surface is total, making it stable and manageable during physical exercise.

It has good area available with a bracket to place weight discs with different sizes, and with a fastening at the front part to place the drag strip that will be attached to the waist.

It is a good complement for physical resistance training.

Ref.	Dimensions (m)	Weight (Kg)
EFC006	1 bag of 0,10x0,33x0,22	0,80
