

- **DESCRIPTION.**

The counterweight is manufactured with the same profile as the goal; 90 mm round tube and 1500 mm length, and it is joined to it through metal clamps.

It will be provided empty, so the client has to fill it with the considered material (concrete, sand...). As orientation, apart from the specified weight, it could be obtained around +14 kg with sand or +23 kg with standard concrete.

\* It is recommended to put 2 units per goal \*.
