

- DESCRIPTION.**

Set of metallic volley posts designed according to the **volley NIDE 2002 regulation**.

Made with extruded aluminium matrix with 120-millimeter diameter. They have an exterior adjustable mechanism formed by tensor and net pulleys that are fixed and moved through the matrix slot allowing to position it at the required height according to the players category.

The tensioning of the net is realized by the zipper.

The required placement of the regulatory is achieved burying the post 40 centimeters in the ground.
